

# Stories in the Park

Families Welcome

Wednesdays

June 8th-August 3rd

10 AM

*This program is co-sponsored by the Baraboo Parks, Recreation & Forestry Department.*

Join Ms. Cari Jo and Ms. Beth at the local parks to share stories, rhymes, songs, and activities. Stick around afterwards to socialize and play at the playground.

We encourage you to bring a blanket or chair, as we'll be sitting in the grassy areas closest to the playground equipment.

**June 8-Langer Park, 501 Remington Street**

**June 15-City View Park, Park View Drive**

**Eco Explorers**  
**For children 4K-5th Grade**  
**Tuesdays @ 10 AM**

**June 14th-August 2nd**  
**Maxwell-Potter Conservancy 700 Hill Street,**  
**Baraboo**

*This program is co-sponsored by the Baraboo Parks, Recreation & Forestry Department.*

**June 14th - Gyotaku Fish Painting with Justine Bula of Sauk County Land Resources and Environment**

*This program is co-sponsored by Sauk County Land Resources and Environment.*

Paint. Fish. Fun. What more could you ask for? Justine Bula, from Sauk County Land Resources and Environment will share the ancient Japanese practice of fish painting, called *Gyotaku*, and participants will get to try the process themselves. All materials will be provided.

- No fish will be harmed in the process.

**June 21st - Nature Boat Creation**

What kind of boat builder are you? Participants will collect materials from nature and assemble a seafaring vessel they'll be proud to share. Each vessel will be tested out in a makeshift "ocean". We'll end this program with nature journaling.

**June 28th - Ocean Exploration**

Calling all Deep Sea Enthusiasts! Participants will take a closer look at the ocean and all its wonders. We'll end this program with nature journaling.

**July 5th - Wacky Water Critters with Upham Woods**

Discover the amazing world of water critters by exploring the Baraboo River. Participants will use nets to collect, examine, and study aquatic insects and other water critters. These hands-on activities will allow participants to learn about animal adaptations, aquatic ecosystems, and the role of aquatic insects in the food chain.

**July 12th - Going Cloud Crazy**

Keep your feet on the ground, but put your head in the clouds as we explore all there is to know about clouds. We'll look up at the sky and experiment with our cloud creation skills. We'll end this program with nature journaling.

**July 19th - Bubble Fun**

Ready, set, blow! Participants will explore the science of bubbles with some hands-on experiments and create their own bubble snake to showcase their bubble blowing skills. We'll end this program with nature journaling.

**July 26th - Rainbow Science**

Fun Fact: No two people see the same rainbow. Participants will learn some fun rainbow facts and explore every color of the rainbow with hands-on activities. We'll end this program with nature journaling.

**August 2nd - Voyageur Program with Upham Woods**

Learn about the fur trade era through the lives of some of its most colorful participants, the *Voyageurs*. Participants will engage in a role-play to learn about the Voyageur way of life. Activities include historical games, fire starting, and songs.

**Nature Journaling**

Nature journaling is the practice of writing, painting, sketching, and noting observations from nature. It helps us to slow down and make note of the world around us. No artistic talent is needed, as it's all about having fun. Each participant will receive a sketch book and all artistic materials will be provided.
