At the September meeting, Readers Anonymous, the book club for Millennials, will discuss ***The Magicians* by Lev Grossman**.

"A thrilling and original coming-of-age novel for adults about a young man practicing magic in the real world.

"At once psychologically piercing and magnificently absorbing, *The Magicians* boldly moves into uncharted literary territory, imagining magic as practiced by real people, with their capricious desires and volatile emotions. Lev Grossman creates an utterly original world in which good and evil aren't black and white, love and sex aren't simple or innocent, and power comes at a terrible price." ~Goodreads.com

"Between life and death there is a library, and within that library, the shelves go on forever. Every book provides a chance to try another life you could have lived. To see how things would be if you had made other choices. Would you have done anything different, if you had the chance to undo your regrets? A novel about all the choices that go into a life well lived." ~Goodreads.com
